What is Semaglutide

Semaglutide is a new exciting medicine that is helping people lose weight and reach their ideal size. It's an easy-to-use, once a week injection that works by regulating food intake by reducing feelings of hunger. Semaglutide also helps you feel more full and satisfied after a meal by delaying gastric emptying.

Benefits of Semaglutide Injections

- Significant weight loss – typically 2-8 pounds per week (Results may vary)
- On average, patients lose 15% of body mass
- Helps you to look and feel beautiful
- Curbs the appetite to decrease calorie intake
- Leaves you feeling more full for longer periods of time
- Regulates blood sugar
- Requires only one treatment per week
