- 20-Year Warranty
- Lab Tested For Performance, Durability, and Content
- World Class Customer Care

Guaranteed & Proven

Years of research and development have been put into our mattresses and we stand behind our product 100%. **We back them with a 120 Day Zero-Risk Return policy** (you pay nothing- not even shipping if you are not satisfied) and a 20 year warranty. Why do we do this? We believe everyone deserves the right to sleep well without paying outrageous prices established by leading brands and their marketing. We provide world-class, friendly Customer Care and have an A+ rating with BBB online- zero complaints in the last 4 years.

We believe our mattresses are simply the best because we have had them tested by independent labs. Our mattresses have been proven comfortable, durable, free from harmful off-gassing, and skin-friendly. **We use the best memory foam available**, created by North Carolina Foam Industries, a company who has been making memory foam since the 1960's-much longer than most other companies. Their components have been used in the Space Shuttle for years.
