## Tennis and Pickleball Court Etiquette

Please observe standard racquet sports etiquette when using the Avalon tennis and pickleball facilities:

- When you need to cross a court where play is in progress, please **WAIT** at the net post at the side of the court for the players to **SIGNAL YOU TO CROSS**. **Never cross BEHIND a court or when play is in progress.**
- If you have reserved a court and are unable to use the reservation, please **CANCEL the court so other members can use that time.**
- If rotating play or lesson participation, please remain on your specific court.
- No open drink containers or chewing gum on any racquet sports courts.
- **Music is not permitted** on any Avalon courts at any time.
- **When leaving a court**, please throw away any empty drink bottles, ball cans, or other trash. Pick up any errant balls left on the court.
- **During the winter**, please put on your playing shoes after entering the facility before walking on the courts to eliminate salt/snow residue on the courts.
- **If you have children** who use Avalon racquet sports courts, **please be sure they are familiar with court etiquette.**

Thank you for your cooperation in improving the racquets sports experience for all Avalon members.
